Ball Float Steam Traps DN80 and DN100

Description

The FT44 is a carbon steel ball float steam trap with integral automatic air venting facility. It is available with horizontal flanged connections only. If required the covers can be drilled and tapped 2" BSP or NPT for the purpose of fitting drain cocks.

Standards

This product fully complies with the requirements of the European Pressure Equipment Directive 97/23/EC and carries the CE mark when so required.

Certification

This product is available with certification to EN 10204 3.1. **Note:** All certification/inspection requirements must be specified at the time of order placement.

Sizes and pipe connections

DN80 and DN100 standard flange is EN 1092 PN40, EN 1759-1 or ASME (ANSI) Class 150 or 300, and JIS/KS 20K.

Capacities - DN80 and DN100

Additional cold water capacities from the thermostatic air vent under start-up conditions

Capacities shown above are based on condensate at saturation temperature. Under start-up conditions when the condensate is cold the internal thermostatic air vent will be open and provides additional capacity to the main valve. The following table gives the minimum additional cold water capacities from the air vent.

Minimum additional cold water capacity (kg/h)

Δp (bar)	0.5	1	2	3	4.5	7	10	14	21	32
Size	Minimum additional cold water capacity (kg/h)									
DN80, DN100 (up to 21 bar)	920	1 360	1 800	2 160	2 600	3 200	3 960	4 100	5 200	-

Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-S02-30) supplied with the product.

Installation note:

The FT44 must be installed with the direction of flow as indicated on the body, and with the float arm in a horizontal plane so that it rises and falls vertically.

Disposal:

This product is recyclable. No ecological hazard is anticipated with the disposal of this product, providing due care is taken.

How to order

Example: 1 off Spirax Sarco DN100 FT44-4.5 ball float steam trap flanged to EN 1092 PN40, with cast steel body and cover with thermostatic air vent.
